

*Dept. of Mathematics and Descriptive Geometry, VSB-Technical Univ. of Ostrava,
Dept. of Mathematics, Faculty of Education, Masaryk University in Brno,*

cordially invite you to the

7th Winter Workshop on History of Mathematics

Mathematics and computing:

**How mathematicians contributed to the developments
in computing machinery and in computing in general**

When: 26–29 January 2017

Where: Tři Studně (Žďár nad Sázavou)

For: mathematics teachers and students,
historians and philosophers of science,
and others interested, but not explicitly listed above

WWW: <http://historiematematiky.webnode.cz/>

The meeting traditionally strives to support interdisciplinary debate and explore various approaches to history of mathematics. We would like to offer a view of mathematics as an indispensable part of our culture. This year, we invite researchers to come and think along with us how mathematics and mathematicians contributed to the development in computing.

Invited speakers

Alena Šolcová (Faculty of Information Technology, CTU Prague)

Jaroslav Švelch (Faculty of Social Sciences, Charles University in Prague)

If you intend to participate, send a note to hdurnova@ped.muni.cz by **30 November 2016**, preferably including the **title** and **abstract** of your talk. Abstracts received by 1 January 2017 will be included in the pre-conference booklet.

Looking forward to seeing you!

Helena Durnová, MU Brno
